FOR IMMEDIATE RELEASE

MVD Communications Ranked 3rd Largest Telephone Supplier in Region

September 22, 2006 – This year, MVD Communications was recognized as the 3rd Largest Tri-State Telecommunications Equipment and Service Provider by the Cincinnati Business Courier. “Because MVD Communications began in Cincinnati, as Cincinnati Voice & Data (CVD), we are very pleased to be recognized by the Business Courier,” said Jeff Black, Founder and CEO of MVD Communications. “This recognition is a testament to the community that we serve and our ability to not only meet, but exceed their expectations of us.” The Business Courier ranks the region’s telephone equipment providers based on the number of employees.

“With today’s telephone systems, employees can work anywhere,” said Black. “Companies know that adopting IP Telephony for their business is the logical long-term decision. Businesses are looking for a partner they can trust to implement the right IP Telephony solution, in a manner and timeframe that is advantageous for their business. This is what has made MVD successful.”

Market Inquiry, a Cincinnati-based market research firm, recently purchased a new telephone system from MVD Communications. “Because of my long-term relationship with MVD, I knew that I could trust what my technician and my salesperson told me I needed for my business,” said Cathy Noyes, Founder and President of the company. “I am fully expecting to use this phone system for more than 10 years. I worked with MVD because I know they will be in Cincinnati in 10+ years as well.”

“At MVD, we have a strong commitment to this community. We believe our continued success in Cincinnati only strengthens the vitality of the region,” Black concluded.

About MVD Communications

MVD Communications is a Cincinnati-based company that provides voice and data network applications for small and large businesses nationwide. Key offerings include telephone systems and voicemail, data networking and design, remote monitoring, customized maintenance and support, and managed services. With regional offices in Florida, Indiana, and Ohio, MVD supports and maintains solutions from such industry leading manufacturers as Avaya, Mitel Networks and Siemens.
